19.07.2016 г.

Dear organizers of the Art Week "City with a face!"

Representative office of Rossotrudnichestvo in the Kingdom of Denmark has the honor to congratulate you on the opening of a wonderful project, which aims to spread the traditions of Russian art in Denmark. We would like to thank Tatyana Yakusheva Sorensen for her significant contribution to the development of humanitarian contacts between Russia and Denmark. Such activities serve the cause of peace and understanding between our countries. The language of art is often stronger than the traditional diplomacy, because this language is the language of the heart and the human soul. We wish the Art Gallery "Kunst og kage" successfully carry out this excellent action, and in the future to continue to please compatriots and Danish visitors of the gallery with high quality presented works.

The head of Representative office
of Rossotrudnichestvo, Russian
Center of science and culture

Artyom Markarjan
